We are organizing a prestigious event called the "Creative Leadership Summit" with the motto "Push the limits" at the Izmir Selçuk Palm Wings Ephesus Resort & Hotel on April 26-27-28.

This summit aims to surpass the boundaries in our thoughts and unleash the creative potential within us. We are all born creative, but over time, our thoughts become confined by limits...

The Creative Leadership Summit will address topics such as the place of creativity in the human brain, how it is triggered, how it develops, and intuitions, guided by an expert. Following that, expert trainers will delve into creative thinking, and leading figures from the business world will share their stories, experiences, and insights into creative leadership. The primary objective of this summit is to inspire participants to enhance their creative thinking skills and encourage them to have the courage to push their boundaries to be more effective in their leadership roles.
